

# Fourth Networking Networking Women Workshop - N2Women

In conjunction with ACM SIGCOMM 2014 conference, on August 17, Chicago, USA.

The main goal of N2 Women is to foster connections among the **under-represented women** in computer networking and related research fields. In the 4th N2Women Workshop, we welcome **under-represented men** who share the same research interests, attend the same conferences, and often face the same career hurdles and obstacles to join us!

## Call for Posters

Posters are solicited for research related to any aspect of networking and communications. All researchers in the networking and communications fields are welcome to submit their work for presentation at this workshop. Each poster abstract will be reviewed by members of the TPC. Posters will not be published and hence can be under submission for other conferences or workshops.

Two posters will be selected to receive a best poster award generously sponsored by Hewlett Packard Laboratories. Travel grants are available. Application instructions can be found here: <http://conferences.sigcomm.org/sigcomm/2014/n2women.php>

## Submission

Each submission should be formatted as an extended abstract, describing the research to be presented in the poster. The length of the extended abstract should be at most TWO pages (formatted into the US letter size of 8.5 \* 11 inches with fonts no smaller than 10 point size), including all figures and references. The extended abstract must include the names, affiliations and email addresses of all authors and should be submitted as a single PDF file to EasyChair:
