

MCC 2013 Chairs' Message

It is our pleasure to welcome you to the 2nd edition of MCC, the Mobile Cloud Computing Workshop associated with SIGCOMM. We are happy to have this event in Hong Kong, China, a city with an exceptional tradition in international culture, business and scholarship.

The MCC workshop will feature as keynote speaker John C.S. Lui, an internationally renowned scholar in systems, networks, theory/mathematics. John will deliver the keynote on mobile cloud computing focusing on the recent development of cloud services and security for smartphones.

The workshop has a single track program comprising three sessions that offer selected papers in a broad range of mobile cloud computing topics – from mobile cloud architectures to mobile social networks, mobile cloud based sensing, security, and multimedia applications. The main theme that emerges from these diverse contributions, and the main message to our attendees, is the coming together of extremely different technologies to form the common support of pervasive mobile cloud computing.

Many Colleagues, through various Committees, have helped making this conference a success. To them goes our most sincere gratitude. In particular, our thanks to TPC members: Nath Badri, Victor Bahl, Fan Bai, Paolo Bellavista, Thomas Michael Bohnert, Flavio Bonomi, Samia Bouzefrane, Jose Maria Alcaraz Calero, Andrew T. Campbell, Wenguang Chen, Marco Conti, Christophe Diot, Falko Dressler, Serge Fdida, Jeffrey R. Foerster, Mario Di Francesco, Silvia Giordano, Ruan He, Myong Kang, Gunnar Karlsson, Andreas Kessler, Jae Kim, Kyu-Han Kim, Yevgeni Koucheryavy, Robin Kravets, Marc Lacoste, Gerard Le Lann, Liviu Lftode, Victor Li, Songwu Lu, Gregorio Martinez, Rodolfo Milito, Peng Ning, Jörg Ott, Giovanni Pau, Guy Pujiolle, James C. Ramming, Kui Ren, Marco Rocchetti, Limin Sun, Cho-Li Wang, Cliff Wang, Cong Wang, Bin Xiao, Lixia Zhang, Rui Zhang, Xinwen Zhang, Yuezhi Zhou, Haojin Zhu.

We want to thank Tianyi Xing, the MCC workshop paper submission website master, and Zhihui Ge who helped us establish and maintain the workshop public website.

We are grateful to the SIGCOMM workshop chairs, Aditya Akella and Ratul Mahajan, for making the MCC workshop possible, and we wish to acknowledge their continuing support and advice in the organizational details.

We cordially invite you to participate in the outstanding MCC 2013 program and to enjoy beautiful Hong Kong in August.

Mario Gerla and Dijiang Huang

General Chairs, MCC, 2013
